

College of Business Bachelor of Innovation™ in Business Administration 2021-2022 ACADEMIC YEAR

The University of Colorado Colorado Springs, along with the College of Business, was established in 1965. The College, which is accredited by AACSB International-the Association to Advance Collegiate Schools of Business, awards the Bachelor of Innovation™ in Business Administration degree.

All students in AACSB Accredited programs must complete a minimum of 45 credits in business.

GENERAL REQUIREMENTS

All students enrolled in the College of Business are subject to academic policies and procedures as outlined in the University of Colorado Colorado Springs Academic Catalog.

Please read the 2021 - 2022 Catalog carefully.

The undergraduate degree requires 120 semester hours with courses taken in general education, general business, innovation and a cross-disciplinary area of interest.

Upper-division Hours: A minimum of 45 credits must be upper-division (3000 or 4000-level) course work.

Residency: Candidates for the Bachelor of Innovation™ in Business Administration must complete a minimum of 30 credits of business course work as College of Business students (to include the innovation specific courses, all junior core courses, ENTP 1000, BGSO 4000, and ENTP 4500).

Transfer Restriction: A maximum of 60 semester hours of appropriate academic credit taken at a junior or community college may be applied toward the undergraduate degree in business.

The College reserves the right to disallow any credit that is not appropriate academic degree credit.

The College does not allow students to pursue a 2nd bachelor's degree in business.

The College of Business divides the curriculum into two components: Skills Courses and the Professional Program.

Skills courses are completed in the freshman and sophomore years and provide students with a foundational knowledge of business skills and competencies. Skills courses must be completed with a C- or better and are the following courses: ACCT 2010, ACCT 2020, ECON 1010, ECON 2020, ENGL 1310, MATH 1040, MATH 1120, QUAN 2010, and QUAN 2020.

Upon the successful completion of the freshman and sophomore years, business students move on to the Professional Program. The Professional Program gives students the opportunity to gain knowledge of core business concepts but also allows students a focused area of study in their chosen emphasis. The Professional Program consists of the Junior Core classes (FNCE 3050, MGMT 3300, MKTG 3000, INFS 3000 and OPTM 3000), an emphasis (18 -24 hours - courses depend on student's choice) and two Senior Capstone courses (BGSO 4000 and STRT 4500). All Professional Program courses must be completed with a C- or better.

Emphasis students must maintain the following criteria:

- 2.0 cumulative CU GPA
- 2.5 College of Business GPA
- 2.5 Area of Emphasis GPA
- Completion of all skills, junior core, capstone and emphasis courses with no grade below C-.

ROAR Program Overview:

Relationships • Opportunities • Acumen • Readiness

Purpose

The purpose of the ROAR program is to prepare undergraduate College of Business students for their transition from college to career. The program focuses on career exploration, career planning, professionalism, networking, and mentorship. The ultimate goal of the ROAR program is for students to seamlessly transition from their academic careers as College of Business students to careers as business professionals.

Goals

1. Provide students with an in-depth understanding of their interests, skills, and values, and how these match to particular jobs and professions.
2. Give students hands-on experience on how to write cover letters and resumes, practice effective interviewing techniques, develop effective job-hunting skills, and refine the art of building a professional network.
3. Immerse students in experiential learning opportunities to gain real world experience prior to graduation. This may include internships, service-learning and volunteer opportunities, co-ops, and part-time employment.
4. Help students converse, interact, and dress in a professional manner with a focus on professional etiquette.
5. Provide rich mentorship opportunities that connect students with industry professionals.
6. Provide students with tools to successfully transition from the College of Business to a career as a business professional.

2021-2022 MODEL DEGREE PROGRAM

The following four-year plan lists all the specific course requirements for the Bachelor of Innovation in Business Administration degree. The order in which these courses are taken may vary with course availability. However, normal degree progress in the College of Business requires that students complete the degree in a freshman, sophomore, junior, senior sequence.

Students are responsible for completing all course prerequisites; prerequisites are strictly enforced.

All classes are presumed to be 3 credits unless otherwise noted.

Overview of the Compass Curriculum

The Campus-Wide Education Program at UCCS

The Compass Curriculum is the campus-wide undergraduate education program at UCCS. At some campuses they have General Education, but this is so much more. It's all directly tied to your personal and professional success after you graduate. Some components of the Compass Curriculum include:

Gateway Program Seminar (GPS) Introduces students to UCCS, the Compass goals, academic skill preparation, and oral communication, a key skill employers will value.

Explore Courses Expose students to a breadth of disciplinary perspectives that shape decision-making. Students take one course focused on the Physical and Natural World, one on the Arts and Humanities, and one on Cultures, Society, Social and Economic Institutions, Health and Human Behavior. Students are encouraged to take courses from all colleges, including professional schools, which will count toward their overall GE program. Courses integrate High Impact Practices such as Writing Intensive, Inclusiveness, and common learning experiences (such as general chemistry for science majors).

Navigate Courses Taken in the third year, focus on the concept of "Knowledge in Action"; students learn and apply knowledge from a range of disciplines. These interdisciplinary courses are often team-taught, with a goal of informing students on how real world endeavors are informed by academic knowledge. Courses may include service learning, internships, and common learning experiences.

Inclusiveness (Global/Diversity) Courses Focus on preparing students for a society with diverse experiences, perspectives and realities, both in the US and, ideally, globally. May also focus on the dynamics and consequences of inclusion and exclusion. This course could be integrated into an Explore course or other courses that fulfill requirements in the students' major.

Sustainability Courses Enable students to cultivate self-awareness and understanding of their impact on economic, social, or environmental sustainability at the local, national, and international levels. Aim to promote an understanding of sustainability as a set of conditions that enable humans to live compatibly with the environment to allow social and economic needs of present and future generations to be met. This course could be integrated into an Explore course or other courses that fulfill requirements in the student's major.

Writing Intensive Courses One lower division and one upper division course focused around using writing for critical thinking and the concept of writing as a process. Students write, on average, twelve pages throughout the semester with peer review, revisions, and feedback on their writing. Ideally this course is in the major, however, this course could be integrated into an Explore course.

Capstone Experience Course or experience taken in the senior year in the major and designed to apply and integrate knowledge in the major. Encourages communication skill development employers would like our graduates to have.

*Bachelor of Innovation students will meet the Compass Curriculum through college, major and BI specific coursework.
